Welcome to the new school year!
Just as parents are important members of an IEP team, parents are also important members of a school district community. Find your school district below along with opportunities to volunteer and get involved. Opportunities include attending school board meetings, contributing to community committee work, joining your school parent group or volunteering in classrooms. Find what works for you!

The Arc is here to help!
If you are interested in starting a special education parent group in your district or would like ideas for how to make your voice heard in an existing parent group, please contact The Arc of Snohomish County. We want to help!

For questions, please contact:
