

Applied Behavior Analysis (ABA) Provider List | Snohomish County & nearby

[November, 2018 | The Arc of Snohomish County resource](#)

This list of ABA providers in Snohomish County and nearby is provided to you courtesy of The Arc of Snohomish County. *This list has been updated as of November, 2018 so please verify details when contacting a provider.* The ABA providers listed here have a least one Board Certified Behavior Analyst (BCBA) on staff: the BCBA is on the Behavior Analysis Certification Board Certificant Registry (<https://www.bacb.com/page/100155/>).

*Service location: ABA providers typically provide ABA services either in-center or at your home, and may provide ABA services in a community setting (e.g. community center, library,...) or school setting (typically private schools and some public school districts). ABA providers typically only provide in-home ABA within a certain distance from their center. Please verify.

**Tips: An ABA schedule should be customized to your child's unique needs, and an intensive day treatment program (25-40 hrs/week) may or may not be necessary. Lots of ABA providers provide flexible schedules from a few hours/few days per week to many hours/5 days a week. Since waitlists for ABA service are typically very long, IMMEDIATELY PLACE your child on as many ABA provider waitlists as you can manage. Periodically follow-up to see if a spot opens up.

Insurance: Please verify if an ABA provider accepts Medicaid, your private insurance or both, and that your private insurance offers ABA services.
